

**Products Preview: BASIC EASY LIFE**

The new evolution of the **BASIC LINE**. Thanks to the special gearcase, the **EASY LIFE** system, can manage the welding process on a semi automatic way. The electronic system guarantees the continuous repeating of the welding cycles and automatically controls the preset parameters. The **EASY LIFE** system can store up to 400 joint reports. It is possible to transfer the welding data to a PC through a serial port (USB adaptor connector available) and data-management software. A printer can be connected to the serial port, to obtain a welding report at the end of each welding cycle.

The **EASY LIFE** system is available for the complete **BASIC LINE**. [For more details...](#)

**Products Preview: ALFA 315 - FITTINGS Elbows, tees, crosses and wyes**

Workshop welding machine designed to fabricate fittings like elbows, tees, crosses and wyes up to  $\varnothing$  315 mm, by joining pipe segments, with the help of special jaws. The **ALFA 315** welding plastic materials such as: HDPE, PP.

- A machine body with two carriages, one of which driven by a hydraulic system.
- A manual hydraulic control panel for the welding cycle.
- A milling cutter.
- A Teflon-coated heating plate. [For more details...](#)

ELBOWS		90 ÷ 315 mm 0 ÷ 60°
WYES (Y)		90 ÷ 315 mm 45° ÷ 60°
TEES		90 ÷ 315 mm
CROSSES		90 ÷ 315 mm

## **Underconstruction: ITALIAN WATER TECHNOLOGY**

Excerpt from magazine: **TUBE PRODUCTS INTERNATIONAL**

A noteworthy modern aqueduct is being completed in the Sultanate of Oman, precisely in AS SEEB. The gigantic development comprises well eight projects that together will create a new infrastructure of potable water, sewerage and irrigation for the new district of Oman's capital, Masqat, a city that embraces close to 1.000.000 inhabitants. 450 km of HDPE pipes are being laid, requiring an accurate and comprehensive study and planning. HDPE was chosen for its stability, duration and hygienic qualities, the latter playing an essential role in a contemporary society. The main stern is constituted by OD 900mm pipes, SDR 11; secondary branchings start with OD 560mm pipes. The diameter of the ducts reduces progressively as the peripheral waterworks systems is reached. [Read the Article...](#)

### **Dealer:**

### **GPA FLOWSYSTEM**

RITMO S.P.A. announces the 1° anniversary of the prestigious cooperation of distribution signed with GPA Flowsystem. GPA is a Scandinavian leading suppliers of piping system for flow technology, providing a complete range of plastic pipe, fittings, valves, control systems and welding machines, being the exclusive distributor of many of the industry's leading brands. From the local sales offices across Sweden, Denmark and Norway GPA services a large customer base, among which it will be found both smaller companies and large international corporations. <http://www.gpa.se>
