

PRODUCTS CATALOGUE

"AT EASE IN YOUR CONSTRUCTION SITE"

Ritmo meets all your welding needs in your jobsite

The information and photos in this publication are not binding and RITMO S.P.A. is free to make any alterations without prior notice.

DVANTAGE RITMO

RITMO WORLDWIDE

Ritmo has professional distributors and resellers all over the world. Our staff is ready to assist you in English, Spanish, French, German, Arab, Italian, Russian and Portuguese.

TRAINING

From many years now, we have decided that the best way to grant a client/ distributor a perfect knowledge of our products Is to invest in custom training, in our own premises. These courses are aimed to teach how to operate the products in the best way, and how to supply the "first aid" when necessary.

PRESALES TECHNICAL ASSISTANCE

When a client or a potential client wants to buy us a product, it is our standard procedure to help find the best solution to its needs.

GLOBAL ADVICE

In such a technical field as ours, the customer requires the best assistance. Thanks to the experience developed along the years, and to the co-operation with several manufacturers, institutions, schools and training institutes, RITMO is able to give the most comprehensive advice to no matter which related issue. Our company is a long-time member of a UNIPLAST's (UNI-Italian National Plastics Standards Body) working group dedicated to the study and draw up of new standards within our field. The importance of this group is linked to the fact that the expansion of the plastic welding field ought to be followed by a crescent sensitivity for safety issues, so to have a sustainable and continuous growth. The working group prepares draws, hence present them to the UNI to be discussed and eventually transformed into new standards.

AFTER SALES TECHNICAL ASSISTANCE

Ritmo's Service Centre can solve all kind of technical issues, as well as overhaul our machines. Ritmo has other Service Centres abroad, linked to its official distributors.

STARTING AND TESTING

RITMO' technicians are prepared to make the starting and testing of workshop machines at the client' own premises, so that the fittings production can start almost immediately.

RITMO'S BUTT FUSION MACHINES: WORK PHILOSOPHY AVAILABLE TO EVERYONE!

- MANUAL

welding machines without hydraulic gearcase

- CNC HIGH LEVEL PERFORMANCE

automatic welding cycle special hydraulic gearcase and machine body with integrated mechanical extraction of heating plate Hardware and Software interact to the entire workflow repetition of welding cycles GPS, data-logging and report PDF

This is a self-aligning machine, suitable for welding ducts for the transport of water, gas and other fluids under pressure, up to \emptyset 800 mm 30" IPS. The DELTA 800 was designed in accordance to the International correspondent standards (UNI 10565, ISO 12176-1), and consists of:

- A machine body with a bearing frame, four clamps and two hydraulic thrust cylinders with non-drip quick couplings, and steel inserts.
- An extractable heating plate with separate thermometer for reading the working temperature.
- An extractable electrically controlled milling cutter for levelling the ends of the pipe and/or fitting, with a safety microswitch and overload cutout.
- An electrohydraulic gearcase with a clamp opening and closing lever, maximum pressure and discharge valves (useful also during the "Dual Pressure" welding), hydraulic hoses with non-drip quick couplings, a timer (for the heating and welding phases), an extractable electrical panel with power outlet for the heating plate, an electronic thermoregulator for the control of the working temperature, a differential circuit breaker, and a special connection for the electronic data-logging THE INSPECTOR.
- A milling cutter/heating plate support.

The DELTA 800 can weld fittings such as bends, tees, branches and flange necks. This is possible because the 3rd clamp can be anchored to the 1st and 2nd (movable) and slide along with the pipe. The fitting must be locked in the 4th clamp. Necks with a highly reduced tang can be welded with the help of a special tool (on request), applied to the clamps.

TECHNICAL FEATURES

500 ÷ 800 mm water - gas - oil

FACER fast removing system

"DIGITAL DRAGON"

* Suggested power generator 30kVA

| Working range | 500 ÷ 800 mm 20" IPS ÷ 30" IPS |
|-------------------------------------|---|
| Materials | HDPE, PP, PVDF For other materials contact RITMO S.P.A. |
| Power supply | 400 V 3F+N+PE 50/60 HZ |
| Total absorbed power* | 16500 W |
| Working temperature | 180° ÷ 280° C (356° ÷ 536° F) |
| Outside temperature range | -10° ÷ 40° C (14° ÷ 104° F) |
| Time to reach welding temperature | < 45' |
| Dimensions machine body (W x D x H) | 2100 x 1350 x 1300 mm (83" x 53" x 51") |
| Weight machine body | 821 Kg (1810 lb) |
| Weight standard composition | 1260 Kg (2777 lb) |

ON REQUEST

Inserts Tool for flange necks

Trolley

Electrical crane

The INSPECTOR Data-logging

Rollers

and: Inserts Ø 20"÷ 30" IPS; 18"÷ 24" DIPS
