

KELA 16-63

UNIVERSAL ALIGNER

Kela is a universal and compact aligner suitable for plastic pipes, fittings and electrofusion saddles. Thanks to its particular clamp design, it is possible to align pipes and fittings in a straight position or at 45° and 90°.

Kela is equipped with two plates: a wide and a narrow one, to be used according to the application.

The wide plates are used for the straight alignment and give a better grip and positioning, while the narrow plates are designed to make Kela more compact and therefore easier to use in the 45° and 90° application, as well as in narrow working conditions or electrofusion saddles welding.

The working range can be easily adjusted thanks to these interchangeable plates.

Kela is supplied with a transport bag and it is available in metric version with working range: $\varnothing 16 \div 63$ mm;
in inches CTS: $\varnothing \frac{1}{2}'' \div 2''$ CTS
in inches IPS: $\varnothing \frac{1}{2}'' \div 2''$ IPS

Working combinations

TECHNICAL FEATURES

Working range \varnothing	Metrical: 16 ÷ 63 mm Inches CTS: $\frac{1}{2}'' \div 2''$ Inches IPS: $\frac{1}{2}'' \div 2''$
Type of alignment	straight, 45°, 90°
Weight	1,4 Kg
Weight including the transport bag	2 Kg
Kela minimum dimensions	206 x 155 x 104 mm
Kela maximum dimensions	298 x 126 x 153 mm
Bag dimensions	400 x 180 x 130 mm

Wide plates for a better grip
